

# Type 2 Diabetes

# Please join us!

## PATHWAYS

**Date**

Wednesday 27-Jan-2021

**Time**

7:00 PM

**Presenter**

Dr. Anjali Kundi, Zafreen Nazarali and Siva Sivapalan

Treatment options for type 2 diabetes are expanding, making it challenging to navigate treatment guidelines and make appropriate decisions to manage your patients' disease.

**We are inviting you to join us on a unique virtual journey through the lives of different patients with type 2 diabetes.** This interactive experience allows you to choose and assess a virtual patient in a realistic setting, make treatment decisions based on each patient's history, clinical characteristics, and current treatments, and assess their overall health and experiences over time.

**Using a decision tree format that allows you to "choose your own adventure"** and engage in a patient journey. After assessing patient outcomes and clinical parameters over various intervals of time, this **program offers the benefit of stepping back to revisit your treatment decisions, with the goal of optimizing patient care.**

### Meet the patients

Melanie

Xavier

Esma

Darius

### Agenda

Time	Topic
7:00 - 7:10	Welcome and introduction
7:10 - 8:10	<b>Objectives of this program</b> <ul style="list-style-type: none"><li>• Explore different type 2 diabetes treatment pathways and help patients achieve clinical targets</li><li>• Discuss implications of type 2 diabetes treatment choices on patient experiences and outcomes</li><li>• Reflect on current practices and identify opportunities to optimize patient care</li></ul>
